HEADLIGHT AND TURN SIGNAL CONTROL

HEADLIGHT SWITCH

- Turn the headlight switch to the EDGE position to turn on the front parking, tail, license plate and instrument panel lights.
- Turn the headlight switch to the

 position to turn on the headlights. All other lights remain on.

HIGH BEAM

- Push the headlight switch forward to select the high beam function. The blue
 indicator light illuminates. Pull the headlight switch back to the original position to select the low beam. The blue
 indicator light goes off.
- Pull and release the headlight switch to flash the headlight high beams on and off.

TURN SIGNAL SWITCH

- Move the headlight control switch up or down to signal the turning direction. When the turn is completed, the turn signals cancel automatically.
- To signal a lane change, move the headlight control switch up or down to the point where the indicator light begins to flash, but the headlight control switch does not latch.

FOG LIGHT OPERATION (if so equipped)

NOTE: The headlights must be on and the low beams selected for the fog lights to operate.

- Turn the switch to the ‡D position to turn on the fog lights. The ‡D indicator light illuminates.
- Turn the switch to the OFF position to turn off the fog lights. The ‡○ indicator light goes off.

WINDSHIELD WIPER/WASHER SWITCH

- The ignition switch must be in the ON position to activate the windshield wipers.
- Push the lever down to operate the windshield wipers.
- Switch operation includes:
 - Intermittent Wipers operate intermittently and can be adjusted by turning the time control.

 Also, the intermittent operation speed varies in accordance with the vehicle speed. (For example, when the vehicle speed is high, the intermittent operation speed will be faster.)
 - Low speed Wipers operate at a continuous low speed.
 - HI High speed Wipers operate at a continuous high speed.
 - Mist Lift the lever up for one sweep operation of the wiper.
 - Wash Pull the lever toward you. Wipers automatically wipe several times.

STEERING WHEEL SWITCHES FOR AUDIO CONTROL (if so equipped)

To choose Preset A, B, C, CD or AUX press **MODE** repeatedly. The tuning up or down ♦ switch can be used to perform the following:

- Push and hold the \$\\$\\$ switch for more than
 1.5 seconds to seek the next or previous broadcasting radio station.

- To activate the cruise control, push the ON·OFF switch. The indicator light in the instrument panel will illuminate.
- To set cruising speed, accelerate the vehicle to the desired speed, push the COAST/SET switch and release it. The SET indicator light in the instrument panel will illuminate.
- To reset at a faster cruising speed, push and hold the ACCEL/RES switch. When the vehicle reaches the speed you desire, release the switch.
- To reset at a slower cruising speed, push and hold the COAST/SET switch. Release the switch when the vehicle slows to the desired speed.
- To cancel cruise control, push the **CANCEL** switch or tap the brake pedal. The SET indicator light in the instrument panel will go out.
- To resume a preset speed, push and release the ACCEL/RES switch. The vehicle returns to the last set cruising speed when the vehicle speed is over 24 MPH (38 km/h).
- To turn off cruise control, push the ON·OFF switch. Both the CRUISE indicator light and the SET light in the instrument panel will go out.

Adjust the front cup holder size by turning the adjustment knob and sliding the cup holder divider to the desired position.

SUNROOF CONTROLS (if so equipped)

■ The ignition switch must be in the ON position to operate the sunroof.

TILTING THE SUNROOF

- To tilt the sunroof up, push the switch toward UP/ CLOSE. 01
- To tilt the sunroof down, push the switch toward DOWN/OPEN. 02

SLIDING THE SUNROOF

- To close the sunroof, push the switch toward UP/CLOSE. 01
- To open the sunroof, push the switch toward DOWN/OPEN. 02

FUEL-FILLER DOOR RELEASE

The fuel-filler door release is located on the floor to the left of the driver's seat.

- To open the fuel-filler door, push down on the switch. 01
- To lock, close the fuel-filler door securely.

The trunk lid release switch is located on the floor to the left of the driver's seat.

- To open the trunk lid, pull the trunk lid release switch up. 02
- To close the trunk lid, lower and push the trunk lid down securely.

FM/AM/SAT* RADIO WITH CD CHANGER (if so equipped)

01 LOAD BUTTON

LOAD A SINGLE DISC - Press the LOAD button for less than 1.5 seconds. Select the loading slot by pressing the CD insert select button (1-6), then insert the CD. LOAD UP TO 6 DISCS - Press and hold the LOAD button for more than 1.5 seconds. The slot numbers (1-6) will illuminate on the display when CDs are loaded into the changer.

02 PRESET A·B·C BUTTON

Press the **PRESET A·B·C** button until you reach the desired setting. The radio is equipped with three separate banks, each with six station presets. You may store any combination of FM, AM or SAT* radio presets on each bank.

03 CD/AUX BUTTON

Press the **CD/AUX** button to play a CD or play a compatible device such as an MP3 player when it is plugged into the auxiliary jack.

04 RADIO BUTTON

Pressing the **RADIO** select button will change the band to either FM, AM or SAT* radio stations.

05 SEEK BUTTON

To scan quickly through each broadcasting station, press the **SEEK** button. To skip from one track to another on a CD, press the **SEEK** button.

06 SCAN BUTTON

Press the ★ (SCAN) button to stop at each broadcasting station (FM, AM or SAT*) for 5 seconds. Pressing the button again during this 5-second period will stop scan tuning and the radio will remain tuned to that station.

07 AUDIO BUTTON

To adjust the Bass, Midrange, Treble, Fade, Balance, Speed Sensitive Volume (SSV) (if so equipped), Beep ON/OFF and Language, press the (AUDIO) button until the desired mode is displayed, then press the TUNE (CAT-FOLDER) button to adjust the settings.

08 TUNE (CAT-FOLDER) BUTTON

■ To manually tune the radio, press the TUNE (CAT·FOLDER) button. When the TUNE (CAT·FOLDER) button is pressed while a CD is playing, it will fast forward or rewind. When the button is released, the CD will play at normal speed.

■ MP3 PLAYBACK (if so equipped)

In addition to playing audio CDs, the audio system can play MP3 files recorded on CD-ROM, CD-R, and CD-RW discs. Each disc can have a maximum of 8 folder levels and 255 folders. A total of 512 MP3 files can be played back. During MP3 playback, some recorded ID3 tag information can be displayed by pressing the CLOCK DISP button. Use the TUNE (CAT-FOLDER) button to navigate the MP3 folders. Press and hold the TUNE (CAT-FOLDER) button to fast forward or rewind.

09 MIX/RPT BUTTON

Press the MIX/RPT button to change the play pattern while listening to a CD or an MP3 CD.

10 EJECT BUTTON

EJECT A SINGLE DISC - Press the ≜ button for less than 1.5 seconds. Select the eject slot by pressing the CD insert select button (1 - 6). The CD will then eject.

EJECT ALL DISCS - Press and hold the **△** button for more than 1.5 seconds.

^{*} SAT presets are only available on SAT equipped vehicles.

MANUAL CLIMATE CONTROL

01 FAN SPEED CONTROL DIAL

Turn the fan speed control dial 💲 to the left (slow) or right (fast) to control fan speed.

02 TEMPERATURE CONTROL DIAL

Turn the temperature control dial for the desired temperature. Turn the control dial to the left for cold air or right for hot air.

03 AIR FLOW CONTROL DIAL

Turn the dial to select the following air flow outlets:

- Air flows from center and side vents with maximum cooling (air conditioning).
- Air flows from the center and side vents.
- Air flows from the center, side, and foot vents.
- Air flows mainly from the foot vents.
- Air flows from the defroster and foot vents.
- Air flows mainly from the defroster vents.

04 DEFROSTING/DEFOGGING FRONT AND SIDE WINDOWS

- Turn the air flow control dial to the front window defroster mode ₩. The A/C automatically turns on when the defroster mode is selected.
- Turn the temperature control dial left or right to set the desired temperature.
- To set the defroster on high, turn the fan speed dial all the way to the right.

DEFROSTING/DEFOGGING REAR WINDOW AND OUTSIDE HEATED MIRROR (if so equipped)

Push the rear window defroster switch again to manually turn the defroster off. This function automatically turns off in approximately 15 minutes.

06 A/C ON/OFF BUTTON (if so equipped)

Press the A/C button to turn the A/C on or off.

07 AIR RECIRCULATION BUTTON (if so equipped)

- Press the air recirculation button to recirculate air inside the vehicle.
- Press the air recirculation button again to turn air recirculation off.

REMOTE KEYLESS ENTRY SYSTEM (if so equipped)

LOCK DOORS

Press the habitton to lock all doors.

UNLOCK DOORS

Press the abutton once to unlock the driver's door only. Press the button again within 5 seconds to unlock all doors.

RELEASING TRUNK LID

Press and hold the trunk release button for longer than 0.5 seconds to open the trunk lid.

USING THE PANIC ALARM

Press and hold the button for longer than 0.5 seconds. The panic alarm will sound and the headlights will stay on for 25 seconds. The panic alarm stops when it has run for 25 seconds, or when any button is pressed on the keyfob.

SILENCING THE HORN BEEP FEATURE

- To deactivate: Press and hold the n and n buttons for at least 2 seconds.
- To activate: Press and hold the and buttons for at least 2 seconds.

INTELLIGENT KEY SYSTEM

This Intelligent Key system allows you to lock or unlock your vehicle, open your trunk and start the engine.

NOTE: It is important to make sure the Intelligent Key is with you (that is, in your pocket or purse).

- The operating range of the door and trunk lock/unlock function is approximately 31 in (0.8 m).
- Locking the vehicle Push any door handle Request Switch
 once.
- Unlocking the vehicle Push any door handle Request Switch once. The corresponding door will unlock. Push the door handle Request Switch on again within 1 minute; all other doors will unlock.

STARTING THE ENGINE

- Push the ignition knob in.
- Confirm the Intelligent Key warning light is illuminated green.
- Turn the ignition knob to start the engine.

TURNING THE ENGINE OFF

- Shift the transmission into P (Park).
- Turn the ignition knob to the LOCK position.
- An audible warning chime will sound when exiting the vehicle if the ignition knob is not completely turned to the OFF position.

OPENING THE TRUNK

- Push the request/release switch 02 under the trunk handle.
- Pull up and out on the handle to open the trunk.

XTRONIC CONTINUOUSLY VARIABLE TRANSMISSION (CVT) (if so equipped)

- The Xtronic CVT does not produce a gear change sensation like traditional automatic transmissions.
- R (Reverse) speed for CVT vehicles is limited to 25 MPH (40 km/h).

STARTING THE ENGINE WITH CVT (Intelligent Key models only)

- Push the ignition knob in.
- Confirm the Intelligent Key warning light is illuminated green.
- Turn the ignition knob to start the engine.

TURNING THE ENGINE OFF WITH CVT (Intelligent Key models only)

- Shift the transmission into P (Park).
- Turn the ignition knob to the LOCK position.

OVERDRIVE (O/D) OFF SWITCH

- Each time your vehicle is started, the transmission is automatically "reset" to Overdrive on.
- To turn Overdrive mode off, push the O/D OFF switch of . The OFF light in the instrument panel will illuminate.
- Use the Overdrive off mode when you need improved engine braking.

The transmission in your Sentra requires a special fluid available only at your NISSAN dealer. No other fluid will meet the exact requirements of the new Xtronic CVT.

6-SPEED MANUAL TRANSMISSION (if so equipped)

LOCK OUT

In 6-speed manual transmission equipped vehicles, the shift lever is equipped with a Reverse lock-out feature that prevents accidental selection of Reverse (instead of 1st gear).

SHIFTING TO REVERSE

Lift up on the collar then move the shift lever left and up into Reverse.

TRUNK DIVIDER (if so equipped)

ACCESSING THROUGH TRUNK

Access the trunk divider by opening the trunk. To remove the trunk divider, press down on the securing latch older. Pull and lift the divider out of the holding brackets of the remove it from the trunk.

FRONT SEAT ADJUSTMENTS

- Pull up on the lever 01 under the front of the seat and slide backward or forward; release.
- Lift the lever 2 on the side of the seat to adjust your seatback backward or forward; release the lever when you have found a comfortable angle and the seat belt fits properly.
- Pull up or push down the adjusting lever repeatedly to adjust the seat height.

REAR FOLDING SEAT SYSTEM (if so equipped)

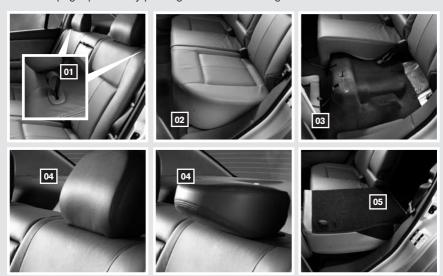

INTERIOR TRUNK ACCESS (if so equipped)

Either side of the seatback (or both) can be folded and has its own release.

■ Pull the release 01 on the top of the seatback to fold the rear seat down.

FOLDING THE REAR CUSHIONS AND SEATBACKS (if so equipped)

- Lift up on the strap 2 located on the front edge of the seat cushion and fold the cushion 3 toward the front of the vehicle.
- 2. Pull forward on the head restraint 4 and rotate it to the lowered position until locked.
- 3. Fold down the seatbacks 05.
- 4. Reverse the process to return the seat to a seating position. Return the head restraint to the upright position by pushing down and releasing it.

SEAT BELT WARNING LIGHT AND CHIME

■ The light and chime remind you to fasten your seat belts. The light illuminates whenever the ignition key is turned to the ON or START position and remains illuminated until the driver's seat belt is fastened. At the same time, the chime sounds for approximately 6 seconds unless the driver's seat belt is securely fastened.

■ The seat belt warning light may also illuminate if the front passenger's seat belt is not fastened when the front passenger's seat is occupied. For 7 seconds after the ignition switch is in the ON position, the system does not activate the warning light for the front passenger.

Refer to the Owner's Manual for detailed information regarding seat belt usage.

TIRE PRESSURE MONITORING SYSTEM (TPMS)

This system monitors tire pressure. Please remember, this system does not detect a sudden drop in tire pressure (for example, a blowout while driving). It also does not monitor the air pressure in the spare tire.

Tire pressure is affected by temperature. Low outside temperature causes lower tire pressure. This may cause the low tire pressure warning light to illuminate. If the low tire pressure warning light illuminates, check the tire pressure in all four tires.

To turn the low tire pressure warning light off, adjust the low tire pressure to the recommended COLD tire pressure shown on the Tire and Loading Information label located in the driver's door opening. After tire pressures are adjusted, the vehicle will need to be driven at speeds above 16 MPH (25 km/h) to activate the TPMS and turn off the low tire pressure warning light.

If TPMS is not functioning properly, the low tire pressure warning light will flash for approximately 60 seconds when the key is turned on. After 60 seconds, the light will remain on. Have the system checked by a NISSAN dealer.

FRONT-PASSENGER AIR BAG STATUS LIGHT

This vehicle is equipped with the Nissan Advanced Air Bag system. Under some conditions, depending on the type of occupant or object detected in the front passenger seat by the occupant classification sensor, the front-passenger air bag is designed to automatically turn **OFF**. When the front-passenger air bag is **OFF**, the front-passenger air bag status light will illuminate*. For example:

- When the system detects that the front-passenger's seat is occupied by a small adult, child or child restraint as outlined in the Owner's Manual, the OFF or ¾ will illuminate to indicate that the front-passenger air bag is OFF and will not inflate in a crash.
- When the front-passenger's seat is occupied and the passenger meets the conditions outlined in the Owner's Manual, the OFF or will not illuminate to indicate that the front-passenger air bag is operational.

*When the system detects that the front-passenger's seat is unoccupied, the passenger air bag status light will not illuminate even though the front-passenger air bag is OFF.

Refer to the Owner's Manual for detailed information regarding the Nissan Advanced Air Bag System.

TRIP COMPUTER (if so equipped)

TRIP INFO BUTTON

When the **TRIP INFO** button is pressed, the following modes will display on the screen:

- AVERAGE SPEED (mph or km/h) Shows the average speed since the last reset.
- FUEL ECONOMY (mpg or L/100 km) Shows the average fuel consumption since the last reset.
- TRIP TIME Shows the time since the last reset.
- RESET Press and hold the **TRIP INFO** button for more than 1.5 seconds to reset the trip items.

CLOCK/SET ADJUSTMENT

The audio system must be turned off to adjust the time.

- To adjust the time, press and hold the CLOCK DISP button for more than approximately 1.5 seconds.
- Hour Adjust will appear on the screen; press the SEEK or TUNE button to adjust the hour.
- 3. Press the CLOCK DISP button again.
- Minute Adjust will appear on the screen; press the SEEK or TUNE button to adjust the minutes.
- 5. Press the CLOCK DISP button again. Clock Is Set will appear on the screen.

CHILD SAFETY REAR DOOR LOCK

Child safety locks help prevent the rear doors from being opened accidentally, especially when small children are in the vehicle. The child safety lock levers are located on the edge of the rear doors. When the lever is in the LOCK position, the door can be opened only from the outside.

This easy-to-use Quick Reference Guide is intended to help you more fully appreciate some of the unique features and functions of your new vehicle. However, it is not intended to replace your Owner's Manual. The Owner's Manual contains more detailed information to help you better understand the important safety warnings, features, operation, and maintenance of your vehicle.
